FYI

**CONGRESSIONAL PFAS TASK FORCE.** In January, Congressman Dan Kildee (MI), Chief Deputy Whip of the House Democratic Caucus, and Congressman Brian Fitzpatrick (PA) announced the formation of the bipartisan Congressional PFAS Task Force. Comprised of 20 Republicans and Democrats in the U.S. House of Representatives, the PFAS Task Force will work to:

- Hold informational events to educate members of Congress and their staff to increase awareness about PFAS chemicals;
- Craft legislation to address PFAS contamination;
- Meet with congressional leadership, committee chairs and ranking members to ensure PFAS is adequately and more urgently addressed; and
- Fight for more robust funding through federal appropriations to clean up PFAS contamination.

**Subject:** February 2019 State Legislative and Regulatory REVIEW for Regions 6 and 7 (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

Attached is the U.S. Army Regional Environmental and Energy Office – Central Region's February 2019 State Legislative and Regulatory REVIEW for Regions 6 and 7. The REVIEW is a tool we provide to military commands and installations in our geographic area of responsibility each month to assist them in complying with new legislative and regulatory requirements, and in maintaining a current Environmental Management System.

The REVIEW contains current legislative and regulatory activity with potential military relevance. It is also a planning tool for commands and installations with respect to their environmental and energy budgets, as well as infrastructure updates and construction.

Please let us know how we are doing. We value your feedback and welcome your comments and questions. Points of contact in our office are listed on the last page of the publication. If you have any questions or comments, please contact the Army Regional Environmental Coordinator (REC).

For your convenience, links in the Table of Contents will take you directly to the section or state of most interest.

Stanley L. Rasmussen, Director  
Regional Environmental & Energy Office - Central
